Dear Sir,

The price of
aluminium in bars or in plates is
\$3.50 per oz. I have some in plates now
and expect to receive soon some more in
bars and plates.

Some Jewellers here call this
metal aluminum. Is not this a barbarism?
They say Webster writes it so. I never heard
it or saw it written in Europe otherwise than
aluminium, and would like to know whether
that is not correct.

Yours respectfully,

Osborn Bishop
